AT ONCE

THE FIVE THAT MATTER MOST

Ranked by how much they change your day.

A pocket 4G router is judged on its Wi-Fi, its SIM options and how many devices it can carry. STARNO is built strong on all three.

01

Dual-band Wi-Fi 6

2.4 + 5.8

GHZ · WI-FI 6

Two bands, one device. Stay on 2.4 GHz for reach, or move to 5.8 GHz for a quicker, quieter lane. Wi-Fi 6 keeps the connection steadier when several devices share it.

02

Up to 300 Mbps wireless speed

300

MBPS · WIRELESS SPEED

That is the Wi-Fi speed between STARNO and your devices. Behind it, 4G LTE delivers up to 150 Mbps down and 50 Mbps up - plenty for HD video, calls and big downloads.

03

2x2 MIMO

2x2

MIMO

Two antennas transmit and receive at the same time, which helps keep the signal stable and the speed up when conditions are not ideal.

04

eSIM and physical SIM

eSIM + SIM

200+ COUNTRIES

Use a Nano SIM card, or load an eSIM profile and skip the card. Switch plans without swapping cards. Support covers 200+ countries.

05

16 devices at once

16

DEVICES AT ONCE

Phones, laptops, tablets, cameras - up to 16 connections on a single hotspot. Enough for a family, a small team or a full set of travel gear.

Speeds are maximums. Actual speed depends on your network, signal and plan.

STARNO

PORTABLE 4G LTE HOTSPOT

ALSO WORTH KNOWING

Built for the places you actually go.

eSIM or Nano SIM, in 200+ countries. A battery that lasts the day. A pocket that has room for it.

06

9 hours

WORKING TIME

A 3000 mAh battery gives 9 hours of working time and up to 15 days on standby. Charges over USB-C.

07

2.0 inch

COLOUR DISPLAY

Signal, battery, data used, Wi-Fi details and connected devices - all on the device, no app needed to check.

08

96 g

13.9 MM THIN

100 × 60 × 13.9 mm. Slim enough for a jacket pocket, light enough to forget it is there.

THE BUYER'S CHECKLIST

Eight things to check before you buy any pocket 4G router.

WHAT TO CHECK	STARNO
Wi-Fi standard	✓ Wi-Fi 6
Wi-Fi bands	✓ Dual-band 2.4 + 5.8 GHz
Antennas	✓ 2×2 MIMO
SIM options	✓ eSIM + Nano SIM
Connected devices	✓ Up to 16 at once
Battery	✓ 9 hours working time
Display	✓ 2.0 inch colour status display
Wi-Fi security	✓ Up to WPA3

A buyer's checklist, not a head-to-head test. Compare against the spec sheet of any model you are considering.
